## STRIKERS MASSING.

Indiana Miners Gathering at  
Evansville.

## PROPOSE TO INVADE KENTUCKY.

The Mines of the Southern Part of the  
Hoosier State About All Closed Down  
by the Marchers—Seized a Railroad  
Train.

VINCENNES, Ind., Aug. 9.—Eighty striking coal miners from Linton have taken possession of an Evansville and Terre Haute freight train bound for Evansville, where they were to be reinforced, then proceed to Earlington, Ky., and try in a peaceable manner to get the miners at that place to join the strikers. Miners of the state are massing at Evansville and trouble is feared. All the mines in southern Indiana are closed.

EVANSVILLE, Ind., Aug. 9.—The marching coal miners of Southern Indiana went into camp at Garvin Grove, which place had been secured for them by Central Labor Union. It was the original intention of the Central Union to have a monster massmeeting Sunday afternoon, but the plans were changed and the miners will employ different tactics. Their campaign against the local miners will begin this morning. If the marchers are successful here their next move will be on Earlington, Ky.

## A BLANKET INJUNCTION.

DeArmit to Try This Instrument to  
Beat the Strikers.

PITTSBURG, Aug. 9.—It is positively stated that Attorneys Schroyer and Kaufmann, counsel for the New York and Cleveland Gas Coal company, have prepared a petition to Judge Acheson of the United States circuit court for an injunction restraining the officials of the United Mine Workers' union and all striking miners from marching and assembling in the vicinity of Turtle Creek, Sandy Creek or Plum Creek. The application was in the name of non-resident stockholders of the company, and because of this it is a matter for the United States court.

If the injunction is granted the national miners' leaders may as well call the strike off. The blanket injunction issued by Judge Mason in West Virginia, it is admitted, has practically killed the strike in that state. If a similar order of court is issued here it is claimed it will have the same effect.

Mr. DeArmit, following the advice of his attorneys, has claimed that the country in the vicinity of the mines is in a state of insurrection. If the United States circuit court enjoins the strikers from marching or congregating near his works and the strikers pay no more attention to it than they now do to the order issued by the Allegheny county courts in 1894, United States marshals would be put into the field to break up the camps. If they did not succeed United States troops could then be called out, according to Mr. DeArmit's attorneys.

The diggers at Plum Creek held a secret meeting and decided not to work today.

The first operator to sign the uniformity agreement was Captain D. B. Blackburn. W. P. DeArmit said he had not had time to read the contract.

At Johnstown the fan house of Sterling mine No. 8 was burned. Diggers were working in the mine at the time, having refused to strike. There are hints of incendiarism. The mine was closed until a new fan house is erected.

Strikers are continuing orderly and are gaining accessions to their ranks constantly. The 150 men employed at the Horner & Roberts coal mine at Elizabeth refused to go to work.

Another feature of the strike in the Pittsburgh district has come to the surface. It is one which will be ventilated in the courts, and the much-talked-of and defeated ironclad contract will have its inning. The miners' officials will make an effort to have it declared illegal, and men who have lost their money have some hopes of having earnings lost paid to them.

## STRIKERS' DEMONSTRATION.

Miners to Make Another Effort to Get  
Out Men at Wheeling.

WHEELING, Aug. 9.—It is probable that the proposed demonstration against the working mines at Boggs' Run and Glendale will take place today. The Wheeling district leaders have seen the success following the demonstrations in the Pittsburgh district and realize that efforts on every other line have failed to bring out the bone of contention here—the Boggs' Run men. It is also proposed to send a detachment of campers down to the Glendale mines, where some of the miners continue getting out coal for Baltimore and Ohio and Ohio River engines.

At Bellaire a miners' aid store has been established for the aid of the strikers who are in destitute circumstances. A daily canvass of the town replenishes the stock.

## More Miners to Be Ordered Out.

COLUMBUS, Aug. 9.—Fred Dilcher of the national executive committee has wired President Ratchford that at a state convention of miners held at

Montgomery, w. v., a state organization was effected, officers elected and the meeting decided to call out the remainder of the miners who are at work in the Kanawha and New River mining districts.

## Troops Wanted In Illinois.

SPRINGFIELD, Ills., Aug. 9.—Governor Tanner has received no further word from Sheriff Randle of Montgomery county, who sent a call for troops at Coffeen. Governor Tanner sent B. B. Ray, secretary of the railroad and warehouse commission, to Coffeen, instructing him to wire a report of the conditions at Coffeen among the strikers.

## Armed Men Guarding Cars.

UNIONTOWN, Aug. 9.—West Virginia coal continues to go through town in large trainloads over the Baltimore and Ohio. The threat by the strikers to hold up the trains and the fear of interference has caused the West Virginia operators to take precautionary measures, and the trains are now heavily guarded with armed men.

## 2,000 BICYCLISTS PARTICIPATED.

Big Run of L. A. W. Delegates to Atlantic City.

PHILADELPHIA, Aug. 9.—Fully 2,000 wheelmen took part in the L. A. W. national convention run to Atlantic City Sunday. At the races Saturday Fred L. Loughhead, the Sarnia (Ont.) lad, kept up his fine work, but little Earl Kiser landed on top, winning the half-mile professional and the great mile open professional. A purse of \$500 was divided among the winners of the latter race. Eddie Bald also added to his reputation, and, while no firsts appear to his credit, yet his seconds in the mile open and the five-mile professional finals were within hair breadths of being firsts.

Major Taylor, the colored crack, was a hot favorite in the mile open heat, which was won by him and finished in grand style.

Among the amateurs there was much good racing, and Peabody, Eddie Llewellyn and Charles M. Ertz put up the finest exhibition.

After the scheduled events had been run off Fred Schade, the Virginia amateur, succeeded in breaking the world's record for one-third of a mile. In addition to this there were a number of trials at the world's record for one mile amateur and professional. Church covered the three laps in 1:43 3-5, and but for the second pacing team's slowness would have chopped at least two seconds off the time he made. Major Taylor had the next try with a squad and triplet as pacemakers. The major crossed the tape in 1:43 3-5.

"Johnny" Zimmerman rode an exhibition half-mile in 53 2-5 seconds, and Arthur Garainer, paced by quads, did a mile in 1:44.

## REFUSED TO PAY MINERS.

W. P. DeArmit Enforcing a Clause In  
His Ironclad Contract.

PITTSBURG, Aug. 9.—The failure of the New York and Cleveland Gas Coal company to pay their employees at Sandy Creek mine Saturday proves that W. P. DeArmit intends enforcing the fourth article of his contract with the men, which states:

"That if the employee shall quit the employment of the New York and Cleveland Gas Coal company at any time during the agreement, except for reason satisfactory to the company, he will forfeit any and all moneys which be due at that time to him for mining coal."

When the miners signed the contract with the company each man was given \$1 to bind the agreement. The miners will find it a difficult matter to secure the money held by the company, although President Dolan promised the men at Sandy Creek that suit will be entered immediately to regain the same. Tomorrow is payday at Turtle Creek and Plum Creek mines, and it is believed the company will adopt the same policy at these mines.

## SICK FROM MOSQUITO BITE.

New York Girl Almost Dies From In-  
sect Poison.

NEW YORK, Aug. 9.—Miss Dorothy Dodworth, 18 years old, daughter of a music publisher in this city, is dangerously ill at Elmhurst, L. I., as the result of a mosquito bite.

A week ago, about, in the evening, while lying in a hammock on the lawn, a mosquito bit her on the right leg below the knee. By midnight she was in great pain. By morning the leg was swelled to nearly double its natural size.

Erysipelas and blood poisoning set in and the services of three doctors was required. An operation was performed and Miss Dodworth, though not out of danger, is better. The physicians think that the blood poisoning was caused by the patient's being inoculated with some noxious substance, on which the mosquito had been feeding.

## SPAIN'S PREMIER SHOT

Fell at His Wife's Feet, an  
Anarchist's Victim.

## DIED CRYING "LONG LIVE SPAIN!"

The Assassin Fired Three Times, Two of  
the Bullets Hitting the Spanish States-  
man—The Murder Occurred at Santa  
Ageuda, Noted For Its Baths.

MADRID, Aug. 9.—Senor Canovas del Castillo, prime minister of Spain, has been assassinated at Santa Ageuda by an anarchist. The murderer fired three shots, one of which struck the old premier in the forehead and another in the chest.

The wounded man fell dying at the feet of his wife, who was with him, lingering in agony for an hour and

SEÑOR CASTILLO.

then passing away with the cry of "long live Spain," which were the last words upon his lips.

Santa Ageuda is noted for its baths. The place is between San Sebastian, the summer residence of the Spanish court, and Vittoria, the capital of the province of Alava, about 30 miles south of Bilbao. The premier went there last Thursday to take a three weeks' course of the baths, after which he expected to return to San Sebastian to meet United States Minister Woodruff when that gentleman should be officially received by the queen regent.

The assassin was immediately arrested. He is a Neapolitan and gives the name of Rinaldo, but it is believed that this is an assumed name and that his real name is Michele Angino Gollit.

At a special meeting of the cabinet under the presidency of Senor Cos-Gayon, minister of the interior, the latter announced that he had been entrusted by the queen regent with the premiership ad interim.

The murderer declares that he killed Senor Canovas "in accomplishment of a just vengeance," and that the deed is the outcome of a vast anarchist conspiracy. He is believed to have arrived at Santa Ageuda the same day as the premier, and he was frequently seen lurking in the passages of the bathing establishment in a suspicious manner.

Extreme unction was administered to the dying man amid a scene of mingled sorrow and indignation.

The assassin narrowly escaped lynching at the hands of the waiters and attendants who rushed forward. Detectives and civil guards immediately secured him. He was very pale, trembled violently and evidently feared that he would be killed on the spot.

The greatest excitement and indignation prevail among all classes. The members of the diplomatic corps have expressed their sympathy with the government. Many senators, deputies and generals, while expressing their grief and indignation, have offered to render to the government all the assistance in their power.

It was at first rumored that the assassin was one of the pardoned Barcelona anarchists, but this is not confirmed.

## MUST FREE CUBA.

Secretary Sherman So Says Regarding  
Spain, In Commenting on Canovas'  
Death—Morgan Considers It the Fore-  
runner of a Republic in Spain.

WASHINGTON, Aug. 9.—Secretary Sherman, on being informed of the assassination of Premier Canovas, said:

"This deplorable event will have some effect, of course, on the political affairs of Spain, but to what extent I cannot say. The death of one man is not necessarily going to change the sentiment of the whole country. Spain is a very tenacious country. Her money is gone. Her resources have been exhausted. But she means evidently to hold on to Cuba. Just how she can do it under these circumstances I cannot see. Yet she is opposed to yielding a point. Premier Canovas was a strong partisan. He was the chief exponent of the element which was determined to keep the island at all hazards. Seemingly Spain is almost a unit on this."

"Canovas was a strong factor in the government of Spain, but it is not impossible that another will be found to replace him in that important office having similar views and the same pro-

nounced ideas. Now it may be in this case I am not able to say, but the effects, politically, of such an event are not essentially far-reaching and have not always produced radical developments. As to the consequences of the conduct in Cuba, I do not care to talk. I have no official information of the assassination, and must refrain from venturing guesses as to what it may effect in the future."

Asked as to how long he now thought the Cuban insurrection might last, he replied that that was problematical and he did not care to discuss it.

Senator Morgan of Alabama, a member of the foreign affairs committee of the senate and the champion of Cuba in that body, predicted that the assassination might be the forerunner of a complete change of government, a republic replacing the monarchy. He further said:

"I believe the Cuban conflict will be ended at the close of the present rainy season. This I have frequently contended, and now am confident of it. The termination of the affair would thus be brought about in October."

## THE PAPERS SERVED.

Formal Action Taken Against Sheriff  
and Mayor at Urbana.

URBANA, Aug. 9.—Coroner Hewitt arrived in the city Saturday evening and brought with him summons for Sheriff McLain. Immediately on his arrival he went to the sheriff's office and served McLain with papers in quo warranto proceedings to oust him from office.

This summons is in pursuance of the recent action taken by Governor Bushnell and Attorney General Monnett to oust Sheriff McLain of Champaign county and Mayor Ganson of Urbana for neglect of duty in not preventing the lynching of the negro Chick Mitchell. A similar summons was served on Mayor Ganson.

## Picknickers Fight Officers.

LORAIN, O., Aug. 9.—At the Oak Point resort Sunday afternoon Earl Shuster was arrested for giving away intoxicating liquors and E. R. Wilmot and P. Ashenbach for resisting officers. The saloonkeepers of Cleveland were picknicking on the grounds and had brought large quantities of beer with them, which they proceeded to distribute. Sheriff Lora and a large force of deputies first arrested Shuster, which enraged the picknickers, and they attempted his release. A free-for-all fight ensued, but the officers came off victorious. Justice Hall fined Shuster \$50 and costs for distributing liquor, and Ashenbach and Wilmot \$25 for resisting officers.

He set out with a number of young men a week ago to go to the Alaska gold fields, but was unable to raise enough money. Disappointment is supposed to have led to suicide.

## Had to Lose One Eye.

YOUNGSTOWN, Aug. 9.—It was found necessary in order to save the left eye of Henry Roth of Pittsburgh, who attempted suicide by shooting himself in the head here, that his right eye would have to be taken out, and this was done. ## SHOT BY A MOB.

Negro Killed In Military Fashion  
In Georgia.

## BRUTE HAD ATTACKED A WOMAN.

Her Husband Captured the Negro After  
a Fierce Struggle—Then He Sent For  
His Neighbors—About Fifty of Them  
Came With Guns.

GLENWOOD, Ga., Aug. 9.—Nathaniel Mason, a young negro, who has been employed for some time at the residence of Dr. Charles A. Powell, in this place, attempted an assault upon Mrs. Powell in her bedroom and was captured after a fierce struggle by her husband.

He held him captive while other members of his household went for help and in a short time nearly 50 of his neighbors, armed with guns and pistols, arrived at the scene of the assault. They took the negro from Dr. Powell and carried him some distance down the road, where it was finally decided that he should be shot in military fashion.

After being given an opportunity to pray he was placed against a pile of rocks and the mob drew up in a semi-circle in front of him. At a signal from one of the leaders every trigger was pulled and a shower of lead found lodgment in the negro's body. He was killed instantly.

## THE REPLY TO JAPAN.

Sherman's Answer to the Last Protest  
Will Be Brief and Conciliatory.

WASHINGTON, Aug. 9.—It is understood that the reply of Secretary Sherman to the last Japanese protest against the annexation of Hawaii will be brief by comparison with the long notes that have gone before, but will be conciliatory in tone, the published utterances of eminent Japanese statesmen going to show that Japan has herself no designs upon the islands, but seeks only to preserve her treaty rights.

The tone of the note on this point will be the declaration by Secretary Foster, when he submitted to President Harrison the original treaty of annexation in 1893, which failed owing mainly to the immediate change of administration. This statement was that, according to a recognized principle of international law, the obligations of treaties even when some of their stipulations are in terms perpetual, expire in case either of the contracting parties loses its existence as an independent state.

The second Japanese objection, that annexation would disturb the balance of power in the Pacific, will be met by an elaboration of the argument that the Hawaiian Islands have for so long a period been under the influence of the United States and have by tradition become so closely affiliated with the republic that no sensible change in policies or actualities of government may be expected to result from a legal merging of the islands into the United States.

## Christian Alliance Convention.

CLEVELAND, Aug. 9.—The annual convention of the National Christian alliance is in session here, with between 400 and 500 persons in attendance. The session opened with prayer meeting at Beulah park at 6 o'clock in the morning. The opening address was delivered by President O. M. Brown of this city. It is expected that 3,000 visitors will be present during the sessions. Rev. A. B. Simpson, president of the International alliance, is expected some time this week.

DeArmit to Try This Instrument to

PITTSBURG, Aug. 9.—It is positively  
stated that Attorneys Schroyer and

prepared a petition to Judge Acheson  
of the United States circuit court for an

claimed it will have the same effect.

Mr. DeArmit, following the advice of  
his attorneys, has claimed that the

The diggers at Plum Creek held a se-

ings lost paid to them.

### STRIKERS' DEMONSTRATION.

Miners to Make Another Effort to Get  
Out Men at Wheeling.

WHEELING, Aug. 9.—It is probable  
that the proposed demonstration against  
the working mines at Boggs' Run and  
Glendale will take place today. The  
Wheeling district leaders have seen the  
success following the demonstrations in  
the Pittsburg district and realize that  
efforts on every other line have failed  
to bring out the bone of contention here  
—the Boggs' Run men. It is also pro-  
posed to send a detachment of campers

some of the miners continue getting

At Bellaire a miners' aid store has

structing him to wire a report of the

### Armed Men Guarding Cars.

UNIONTOWN, Aug. 9.—West Virginia

large trainloads over the Baltimore

to hold up the trains and the fear of

PHILADELPHIA, Aug. 9.—Fully 2,000

### REFUSED TO PAY MINERS.

W. P. DeArmit Enforcing a Clause In  
His Ironclad Contract.

PITTSBURG, Aug. 9.—The failure of  
the New York and Cleveland Gas Coal  
company to pay their employees at Sandy  
Creek mine Saturday proves that W.  
P. DeArmit intends enforcing the  
fourth article of his contract with the  
men, which states:

"That if the employee shall quit the  
employment of the New York and  
Cleveland Gas Coal company at any  
time during the agreement, except for  
reason satisfactory to the company, he  
will forfeit any and all moneys which  
be due at that time to him for mining  
coal."

When the miners signed the contract  
with the company each man was given

will find it a difficult matter to secure  
the money held by the company, al-  
though President Dolan promised the

is believed the company will adopt the  
same policy at these mines.

low the knee. By midnight she was in  
great pain. By morning the leg was  
swollen to nearly double its natural  
size.

Erysipelas and blood poisoning set in  
and the services of three doctors were  
required. An operation was performed  
and Miss Dodworth, though not out of  
danger, is better. The physicians think  
that the blood poisoning was caused by  
the patient's being inoculated with  
some noxious substance, on which the  
mosquito had been feeding.

## SPAIN'S PREMIER SHOT

Fell at His Wife's Feet, an  
Anarchist's Victim.

### DIED CRYING "LONG LIVE SPAIN"

The Assassin Fired Three Times, Two of  
the Bullets Hitting the Spanish States-  
man—The Murder Occurred at Santa  
Agueda, Noted For Its Baths.

MADRID, Aug. 9.—Senor Canovas del  
Castillo, prime minister of Spain, has  
been assassinated at Santa Agueda by  
an anarchist. The murderer fired three  
shots, one of which struck the old pre-  
mier in the forehead and another in the  
chest.

The wounded man fell dying at the  
feet of his wife, who was with him,  
lingering in agony for an hour and

SEÑOR CASTILLO.

then passing away with the cry of  
"long live Spain," which were the last  
words upon his lips.

Santa Agueda is noted for its baths.  
The place is between San Sebastian,  
the summer residence of the Spanish  
court, and Vittoria, the capital of the  
province of Alava, about 30 miles south  
of Bilbao. The premier went there last  
Thursday to take a three weeks' course  
of the baths, after which he expected  
to return to San Sebastian to meet  
United States Minister Woodruff when  
that gentleman should be officially re-  
ceived by the queen regent.

The assassin was immediately ar-  
rested. He is a Neapolitan and gives  
the name of Rinaldo, but it is believed  
that this is an assumed name and that  
his real name is Michele Angino Gelli.

At a special meeting of the cabinet  
under the presidency of Senor Cos-  
Gayon, minister of the interior, the  
latter announced that he had been in-  
trusted by the queen regent with the  
premiership ad interim.

The murderer declares that he killed  
Senor Canovas "in accomplishment of  
a just vengeance," and that the deed is  
the outcome of a vast anarchist con-  
spiracy. He is believed to have arrived  
at Santa Agueda the same day as the  
premier, and he was frequently seen  
lurking in the passages of the bathing  
establishment in a suspicious manner.

Extreme unction was administered to  
the dying man amid a scene of mingled  
sorrow and indignation.

The assassin narrowly escaped lynching  
at the hands of the waiters and at-  
tendants who rushed forward. Detec-  
tives and civil guards immediately  
secured him. He was very pale, trem-  
bled violently and evidently feared  
that he would be killed on the spot.

The greatest excitement and indigna-  
tion prevail among all classes. The  
members of the diplomatic corps have  
expressed their sympathy with the gov-  
ernment. Many senators, deputies and  
generals, while expressing their grief  
and indignation, have offered to render  
to the government all the assistance in  
their power.

It was at first rumored that the assas-  
sin was one of the pardoned Barcelona  
anarchists, but this is not confirmed.

## MUST FREE CUBA.

Secretary Sherman So Says Regarding  
Spain, In Commenting on Canovas'  
Death—Morgan Considers It the Fore-  
runner of a Republic In Spain.

WASHINGTON, Aug. 9.—Secretary  
Sherman, on being informed of the as-  
sassination of Premier Canovas, said:

"This deplorable event will have  
some effect, of course, on the political  
affairs of Spain, but to what extent I  
cannot say. The death of one man is  
not necessarily going to change the  
sentiment of the whole country. Spain  
is a very tenacious country. Her money  
is gone. Her resources have been ex-  
hausted. But she means evidently to  
hold on to Cuba. Just how she can do  
it under these circumstances I cannot  
see. Yet she is opposed to yielding a  
point. Premier Canovas was a strong  
partisan. He was the chief exponent  
of the element which was determined  
to keep the island at all hazards. Seem-  
ingly Spain is almost a unit on this.  
"Canovas was a strong factor in the  
government of Spain, but it is not im-  
possible that another will be found to  
replace him in that important office  
having similar views and the same pro-

nounced ideas. How it may be in this  
case I am not able to say, but the ef-  
fects, politically, of such an event are  
not essentially far-reaching and have  
not always produced radical develop-  
ments. As to the consequences of the  
conduct in Cuba, I do not care to talk.  
I have no official information of the as-  
sassination, and must refrain from ven-  
turing guesses as to what it may effect  
in the future."

Asked as to how long he now thought  
the Cuban insurrection might last, he  
replied that that was problematical and  
he did not care to discuss it.

Senator Morgan of Alabama, a mem-  
ber of the foreign affairs committee of  
the senate and the champion of Cuba  
in that body, predicted that the assas-  
sination might be the forerunner of a  
complete change of government, a re-  
public replacing the monarchy. He  
further said:

"I believe the Cuban conflict will be  
ended at the close of the present rainy  
season. This I have frequently con-  
tended, and now am confident of it.  
The termination of the affair would  
thus be brought about in October."

### THE PAPERS SERVED.

Formal Action Taken Against Sheriff  
and Mayor at Urbana.

URBANA, Aug. 9.—Coroner Hewitt  
arrived in the city Saturday evening  
and brought with him summons for  
Sheriff McLain. Immediately on his  
arrival he went to the sheriff's office  
and served McLain with papers in quo  
warranto proceedings to oust him from  
office.

This summons is in pursuance of the  
recent action taken by Governor Bush-  
nell and Attorney General Monnett to  
oust Sheriff McLain of Champaign  
county and Mayor Ganson of Urbana  
for neglect of duty in not preventing  
the lynching of the negro Chick Mitch-  
ell. A similar summons was served on  
Mayor Ganson.

### Picknickers Fight Officers.

LORAIN, O., Aug. 9.—At the Oak  
Point resort Sunday afternoon Earl  
Shuster was arrested for giving away  
intoxicating liquors and E. R. Wilmot  
and P. Ashenbach for resisting officers.  
The saloonkeepers of Cleveland were  
picknicking on the grounds and had  
brought large quantities of beer with  
them, which they proceeded to dis-  
tribute. Sheriff Lord and a large force  
of deputies first arrested Shuster, which  
enraged the picknickers, and they at-  
tempted his release. A free-for-all  
fight ensued, but the officers came off  
victorious. Justice Hall fined Shuster  
\$50 and costs for distributing liquor,  
and Ashenbach and Wilmot \$25 for re-  
sisting officers.

### The Grave Instead of Alaska.

MCARTHUR, O., Aug. 9.—Clark  
Davis left last Thursday to go hunt-  
ing with a double-barrel shotgun and failed  
to return. A searching party has found  
him dead, his head partly blown off. His  
gun lay across his breast, the muzzle  
applied to his mouth. Deceased was 34  
years of age. He set out with a num-  
ber of young men a week ago to go to  
the Alaska gold fields, but was unable  
to raise enough money. Disappoint-  
ment is supposed to have led to suicide.

### Had to Lose One Eye.

YOUNGSTOWN, Aug. 9.—It was found  
necessary in order to save the left eye  
of Henry Roth of Pittsburg, who at-  
tempted suicide by shooting himself in  
the head here, that his right eye would  
have to be taken out, and this was  
done. Roth's recovery is now assured.  
His wife and daughter are with him at  
the hospital.

### Soldiers at Fairport.

FAIRPORT, O., Aug. 9.—Striking ore  
handlers have caused a disturbance  
here, driving off from the docks the  
Hungarians who were engaged to un-  
load the waiting vessels. The strikers  
are nearly all Finns. Company M of the  
Fifth Ohio national guard was sum-  
moned from Painesville.

a passing freight train. Mrs. Johnson  
and her little son were dragged several  
hundred feet before they were released.

### He Cleared \$75,000.

TIFFIN, Aug. 9.—Charles L. Benner  
of Ridgely has arrived in this city from  
Alaska. Mr. Benner went there about  
six months ago and took up several  
claims and cleared \$75,000. Mr. Benner  
will try to get up a stock company and  
return in a short time.

### Ohio Regiment In Nashville.

NASHVILLE, Aug. 9.—The Fourteenth  
Ohio regiment, Colonel A. W. Coit  
commanding, has arrived and gone  
into camp at the exposition. The regi-  
ment will be here for some time and  
will take part in the military exercises  
and displays of the week.

### Fire on a Farm.

TIFFIN, Aug. 9.—The farmhouse and  
barn of C. M. Yontz, living near  
Green Springs, has been destroyed by  
fire. Loss, \$5,000; no insurance. The  
fire originated from the cook stove.

### Massillon Miners Marching.

NORTH LAWRENCE, O., Aug. 9.—  
About 2,000 miners of the Massillon dis-  
trict are on their way to Wadsworth to  
induce men at work there to stop.

### Didn't Take the Leap.

COLORADO SPRINGS, Colo., Aug. 9.—  
William B. Feltz did not take his jump  
from Pike's Peak Sunday owing to the  
cloud and fog.

## SHOT BY A MOB.

Negro Killed In Military Fash-  
ion In Georgia.

### BRUTE HAD ATTACKED A WOMAN.

Her Husband Captured the Negro After  
a Fierce Struggle—Then He Sent For  
His Neighbors—About Fifty of Them  
Came With Guns.

GLENWOOD, Ga., Aug. 9.—Nathaniel  
Mason, a young negro, who has been  
employed for some time at the resi-  
dence of Dr. Charles A. Powell, in this  
place, attempted an assault upon Mrs.  
Powell in her bedroom and was cap-  
tured after a fierce struggle by her hus-  
band.

He held him captive while other  
members of his household went for  
help and in a short time nearly 50 of  
his neighbors, armed with guns and  
pistols, arrived at the scene of the as-  
sault. They took the negro from Dr.  
Powell and carried him some distance  
down the road, where it was finally de-  
cided that he should be shot in mili-  
tary fashion.

After being given an opportunity to  
pray he was placed against a pile of  
rocks and the mob drew up in a semi-  
circle in front of him. At a signal from  
one of the leaders every trigger was  
pulled and a shower of lead found lodg-  
ment in the negro's body. He was  
killed instantly.

### THE REPLY TO JAPAN.

Sherman's Answer to the Last Protest  
Will Be Brief and Conciliatory.

WASHINGTON, Aug. 9.—It is under-  
stood that the reply of Secretary Sher-  
man to the last Japanese protest against  
the annexation of Hawaii will be brief  
by comparison with the long notes that  
have gone before, but will be concilia-  
tory in tone, the published utterances  
of eminent Japanese statesmen going  
to show that Japan has herself no de-  
signs upon the islands, but seeks only  
to preserve her treaty rights.

The tone of the note on this point  
will be the declaration by Secretary  
Foster, when he submitted to President  
Harrison the original treaty of annexa-  
tion in 1893, which failed owing mainly  
to the immediate change of adminis-  
tration. This statement was that, accord-  
ing to a recognized principle of inter-  
national law, the obligations of treaties  
even when some of their stipulations  
are in terms perpetual, expire in case  
either of the contracting parties loses  
its existence as an independent state.

The second Japanese objection, that  
annexation would disturb the balance  
of power in the Pacific, will be met by  
an elaboration of the argument that the  
Hawaiian islands have for so long a pe-  
riod been under the influence of the  
United States and have by tradition be-  
come so closely affiliated with the re-  
public that no sensible change in poli-  
cies or actualities of government may  
be expected to result from a legal  
merging of the islands into the United  
States.

### Christian Alliance Convention.

CLEVELAND, Aug. 9.—The annual  
convention of the National Christian  
alliance is in session here, with between  
400 and 500 persons in attendance. The  
session opened with prayer meeting at  
Beulah park at 6 o'clock in the morn-  
ing. The opening address was deliv-  
ered by President O. M. Brown of this  
city. It is expected that 3,000 visitors  
will be present during the sessions.  
Rev. A. B. Simpson, president of the  
International alliance, is expected  
some time this week.

### Killed by Her Crazy Husband.

BORDENTOWN, N. J., Aug. 9.—At  
Fieldsborough, near here, while Anna  
Robinson, aged 31 years, was sleeping  
in her bed with two children nestling  
on her bosom, her crazy husband, Jas.  
Robinson, cut her throat. Then he  
drew the razor across his own throat,  
cutting a deep but not fatal gash.

### Pension Roll Near Million Mark.

roll of the United States has almost

sioner Evans has just issued a state-  
ment showing that at the beginning  
of the fiscal year the pensioners numbered  
just 983,523, an increase of 12,850 for

### Killed While Hunting.

AUBURN, N. Y., Aug. 9.—The body  
of Dr. Arthur S. Kennedy, aged about  
55 years, a retired eye and ear and  
throat specialist of this city, has been  
found four miles north of this city.  
He had evidently shot himself acci-  
dentally while hunting.

# WOODFORD GREATLY STARTLED.

He Will Convey Our Sympathy to Spain In Her Trouble.

LONDON, Aug. 9.—The news of the assassination of Canovas was communicated by a reporter to General Steward L. Woodford, the United States minister to Spain, now in London, enroute to San Sebastian, where he had expected to present his credentials to the queen regent in the presence of Senor Canovas.

General Woodford was so overcome that several minutes passed before he could express his horror at the deed and his profound sympathy for Spain in her misfortune. When he had recovered from the shock of the intelligence he said:

"This is terrible, most unfortunate. The Spanish government and people will have the sincere sympathy of all friends of constitutional government. It is too soon to express any views as to the effect which the regrettable death of Senor Canovas will have upon current questions. It will not affect my movements, however, unless it becomes my duty to reach my post as soon as possible in order to express to the Spanish government the sympathy of the American government."

## NO CHANGE FOR CUBA.

Sagasta Likely to Be Premier and Follow Same Policy.

NEW YORK, Aug. 9.—Emilio Agramonte, president of the Jose Marti Revolutionary club and the Marti charity organization of this city, when he heard the news of the killing of Premier Canovas, said: "Sagasta, who is head of the liberals, will surely succeed Canovas."

"And I feel certain that should Sagasta succeed Canovas he will follow the same general policy in regard to Cuba as Canovas made every effort to do. It will doubtless be his idea to bring about a relationship between Spain and Cuba such as exists between England and Canada. But such a relationship Cuba will never accept. She must have complete and absolute independence."

"Still, it is my belief that the killing of Canovas will be a great benefit for the cause of Cuba. It may even lead to independence. Independence, that is the only thing for Cuba."

## IN SHAPE FOR WAR.

Assistant Secretary Roosevelt's Favorable Report on the Naval Militia.

WASHINGTON, Aug. 9.—Assistant Secretary of the Navy Theodore Roosevelt has submitted report to Secretary Long on the condition and efficiency of the naval militia, which he recently inspected. He says in part:

"The different bodies of naval militia show, of course, very unequal development toward the proper standard of proficiency. Some have been only recently organized; others, for various reasons, have made less rapid progress than they should. Nevertheless, as a whole, I was very greatly impressed by the progress the naval militia have made. They have displayed noteworthy zeal, energy, perseverance and intelligence, and, as a result, they already form a body of men who would play an important part in the defense of the country if we were to become involved in war with any foreign power."

## Many Drowned in Germany.

# THE OLD RINK MUST GO

John Croxall Has Given the Company Notice.

NINETY DAYS IS THE TIME

It Has Been One of the Best Paying Properties in the City, and Has Made Many More Times Its Investment, Although It Was Once Sold by the Sheriff.

The Fifth street rink must go. John W. Croxall, who owns the ground on which it stands, has notified George H. Owen, president of the company, that it must be removed within 90 days.

The rink was built in 1886, and was not only used for skating purposes, but has been the scene of many a political speech and demonstration. The original lease provided that the company could hold the ground for six years, and was executed before A. R. Mackall, who is now in Newburg asylum. T. H. Arbuckle was president of the company and A. H. Clark secretary. The concern prospered for a time, but the skating craze died away and the building was sold at sheriff's sale, the stockholders losing their investment and 25 per cent. A new company was organized and the property purchased. Skating was continued for a time, but the attendance did not warrant much expenditure in that line, and the company held the building for political meetings and such other gatherings as could not be accommodated in any other building in town. There it was that President McKinley made any number of speeches, and Governor Campbell showed to the world that he was a politician and not a statesman. The place has rung with the cheers of enthusiastic partisans of every political organization, and on special occasions it has been elaborately decorated. Church fairs and athletic contestants have marked its career, and evangelists working in the interests of the churches have filled it with the greatest crowds ever assembled in the city. The rink has been a great institution for East Liverpool and has filled a want which will be keenly felt after it has ceased to exist.

During its career it has had three managers, C. G. Peterson, John Bock and George H. Owen. The last named is president of the company as well, George Goodwin is secretary and treasurer, and these gentlemen, with Doctor Gardner, Holland Manley, George Peach, J. G. Lee, A. H. Clark and T. H. Arbuckle, make up the board of directors. They have made it one of the most valuable pieces of property in town, and the stock of the East Liverpool Amusement Hall company has long been at a premium, with no one desiring to sell.

The lease provides that on 60 days notice the company shall remove the building, and a meeting has been called for tomorrow night at the office of Mr. Owen to decide upon what will be done with it. As yet no plan has been suggested.

Just why Mr. Croxall wants his ground could not be learned, as he is ill at his home in Washington street today, and could not be seen. There is a rumor, however, that the rink will be replaced with a handsome business block.

## CUT HIS THROAT.

Henry Fowler Attempted to End His Life.

## Acetylene Gas.

We are now prepared to place on the market our machines for generating acetylene gas. These machines are adapted for lighting stores, factories, churches and private residences. Small towns and farmers can now have gas as well as those in the cities, as each consumer controls his own little gas plant, which is quite inexpensive. We guarantee to furnish six times as much light at less than half the expense of ordinary gas, electric light or kerosene lamps. A first-class agent is wanted in every county to sell our machines.

Sagasta Likely to Be Premier and Follow Same Policy.

NEW YORK, Aug. 9.—Emilio Agramonte, president of the Jose Marti Revolutionary club and the Marti charity organization of this city, when he heard the news of the killing of Premier Canovas, said: "Sagasta, who is head of the liberals, will surely succeed Canovas."

"And I feel certain that should Sagasta succeed Canovas he will follow the same general policy in regard to Cuba as Canovas made every effort to do. It will doubtless be his idea to bring about a relationship between Spain and Cuba such as exists between England and Canada. But such a relationship Cuba will never accept. She must have complete and absolute independence."

"Still, it is my belief that the killing of Canovas will be a great benefit for the cause of Cuba. It may even lead to independence. Independence, that is the only thing for Cuba."

## IN SHAPE FOR WAR.

Assistant Secretary Roosevelt's Favorable Report on the Naval Militia.

WASHINGTON, Aug. 9.—Assistant Secretary of the Navy Theodore Roosevelt has submitted report to Secretary Long on the condition and efficiency of the naval militia, which he recently inspected. He says in part:

"The different bodies of naval militia show, of course, very unequal development toward the proper standard of proficiency. Some have been only recently organized; others, for various reasons, have made less rapid progress than they should. Nevertheless, as a whole, I was very greatly impressed by the progress the naval militia have made. They have displayed noteworthy zeal, energy, perseverance and intelligence, and, as a result, they already form a body of men who would play an important part in the defense of the country if we were to become involved in war with any foreign power."

# THE OLD RINK MUST GO

John Croxall Has Given the Company Notice.

## NINETY DAYS IS THE TIME

It Has Been One of the Best Paying Properties in the City, and Has Made Many More Times Its Investment, Although It Was Once Sold by the Sheriff.

The Fifth street rink must go. John W. Croxall, who owns the ground on which it stands, has notified George H. Owen, president of the company, that it must be removed within 90 days.

The rink was built in 1886, and was not only used for skating purposes, but has been the scene of many a political speech and demonstration. The original lease provided that the company could hold the ground for six years, and was executed before A. R. Mackall, who is now in Newburg asylum. T. H. Arbuckle was president of the company and A. H. Clark secretary. The concern prospered for a time, but the skating craze died away and the building was sold at sheriff's sale, the stockholders losing their investment and 25 per cent. A new company was organized and the property purchased. Skating was continued for a time, but the attendance did not warrant much expenditure in that line, and the company held the building for political meetings and such other gatherings as could not be accommodated in any other building in town. There it was that President McKinley made any number of speeches, and Governor Campbell showed to the world that he was a politician and not a statesman. The place has rung with the cheers of enthusiastic partisans of every political organization, and on special occasions it has been elaborately decorated. Church fairs and athletic contestants have marked its career, and evangelists working in the interests of the churches have filled it with the greatest crowds ever assembled in the city. The rink has been a great institution for East Liverpool and has filled a want which will be keenly felt after it has ceased to exist.

During its career it has had three managers, C. G. Peterson, John Bock and George H. Owen. The last named is president of the company as well, George Goodwin is secretary and treasurer, and these gentlemen, with Doctor Gardner, Holland Manley, George Peach, J. G. Lee, A. H. Clark and T. H. Arbuckle, make up the board of directors. They have made it one of the most valuable pieces of property in town, and the stock of the East Liverpool Amusement Hall company has long been at a premium, with no one desiring to sell.

The lease provides that on 60 days notice the company shall remove the building, and a meeting has been called for tomorrow night at the office of Mr. Owen to decide upon what will be done with it. As yet no plan has been suggested.

Just why Mr. Croxall wants his ground could not be learned, as he is ill at his home in Washington street today, and could not be seen. There is a rumor, however, that the rink will be replaced with a handsome business block.

## Acetylene Gas.

We are now prepared to place on the market our machines for generating acetylene gas. These machines are adapted for lighting stores, factories, churches and private residences. Small towns and farmers can now have gas as well as those in the cities, as each consumer controls his own little gas plant, which is quite inexpensive. We guarantee to furnish six times as much light at less than half the expense of ordinary gas, electric light or kerosene lamps. A first-class agent is wanted in every county to sell our machines.

## PULLED TWO SALOONS

Unusual Activity on the Part of the Police.

DIDN'T COST THEM VERY MUCH

Mayor Jones Allowed Them to Go After Their Fines Were Paid—The Ball Game. A Big Shovel—Shot Himself in the Side. All the News.

In Mayor Jones' court this morning Uncle John Patterson, who tends bar for John R. Martin, was fined \$28.60 for keeping the bar open on Sunday. Officer Warren was going down Main street when he noticed a man knocking on the back door of the saloon. He followed the man in and placed Patterson under arrest. When he appeared this morning he said he would leave it to Mr. Warren whether he was guilty or not, and when Warren told the facts in the case the mayor told him he was guilty. Mayor Jones said that it has been reported frequently about saloons being open on Sunday, but they can never get positive proof of it. Patterson secured his fine.

Harry Linkenstine was brought up for disorderly conduct. He said a man by the name of Buckman, accused him of insulting him and jumped on him. Linkenstine said he might have sworn. Chief Warren said he was sure of it, and Mayor Jones said \$4.60.

In Justice Mackenzie's court two bums showed their dirty faces. Both were fined \$4.60. One secured his fine and was released, but the other lies in jail thinking over the list of his wealthy friends.

John Ambrose, who controls what is known as the Long Bar, was arrested Saturday night for keeping open after hours. He paid \$10.60 and was allowed to go.

### We Won.

About 800 people saw the Crescent ball team of this city defeat the strong Beaver Falls team on the old fair grounds last Saturday in an exciting game. Gaston, the crack Beaver Falls pitcher, was knocked out of the box, and was replaced by Carr in the fifth. Steele pitched the entire game for Wellsville, and although Beaver Falls got 16 hits from him, ten were singles, four were scratches and two were two-baggers. Almost every hit gotten by Wellsville amounted to a two-bagger. Dolan, the new second baseman, was given an ovation every time he came to the bat, and would bang out a two-bagger, and then the chink of coin would be heard and \$10 was raised to pay his board for another two weeks. McGurran was laid up with a sprained ankle. Turner played his place in left, and Hamilton played Turner's place in right. Score:

Wellsville.....13 17 5  
Beaver Falls.....10 16 6

### A Big Shovel.

A gang of Cleveland and Pittsburg machinists and car repairers worked all day yesterday, giving an immense steam shovel a general overhauling. The shovel belongs to E. H. France, a contractor of Bloomfield. It has been hired for the summer by the railroad company, and has been employed grading down the branch for the last two months. The spoon of the shovel holds a cubic yard. Four cars and a tender make up the train that operates it. One car contains the shovel, one the engine that runs the shovel, a tender that carries the fuel, a car carrying an immense plow and a company car for the gang that accompanies the shovel. It was turned out of the yard this morning, and was taken to Smith's Ferry to dig gravel from the Cleveland and Pittsburg gravel pit, to be used down the river division.

### Shot Himself.

Henry Clutter, residing in Thirteenth street, was shooting rats, Saturday night,

with a flobert rifle when the gun was prematurely discharged, and the bullet struck him in the left side. Doctor Campbell probed for the bullet, but was unable to find it. Clutter is a sick man today, but it cannot be told whether the wound will prove fatal.

### A Hot Pipe.

While the electric light wires were being repaired on Main street, Saturday, a live wire was wrapped around the iron water spout near Lloyd's tailor shop. The spout became charged, and a crowd of men, women and children amused themselves all day by getting passersby to feel how hot the pipe was.

### MONSTER SNAKE KILLED.

It Was Sixteen Feet Long and Terrorized the District.

Farmers in the vicinity of Lock Springs, Mo., have been greatly harassed through depredations on their chickens and pigs, and the mystery was not solved until the other day, when Newton McCrary started on the trail of what appeared to be a monster snake. He traveled a distance of two miles, when he came to the banks of the Grand river, where it appeared the reptile entered the water. A search of the vicinity later on rewarded McCrary for his persistence. Apparently asleep, after having dispatched several full grown chickens, lay a reptile of such monstrous proportions that the man was transfixed with fear. His courage returning, McCrary sent a charge of buckshot into the head of the reptile and precipitately fled.

The contortions of the snake as it lashed its tail and body against the ground and trees added to the fears of the now thoroughly terrified man. Summoning the assistance of neighbors, McCrary cautiously led back an armed party, when, to his satisfaction, the life of the reptile was found to be extinct. It measured 16 feet, and the body was as large as an ordinary stovepipe. The species of the reptile is not known, although it looks very much like a python. Early in the spring it was seen several miles farther up the Grand river, but reports of the terrified spectators were not generally credited.—St. Louis Globe-Democrat.

## CHIVALRY AND MATRIMONY.

Time Honored Notions of Olden Days Which Don't Stand the Test.

We all want to consider the days of chivalry as the golden days—never to be recalled—for womankind. This is by implication a rank injustice to our own time.

With all its fine expressions of ardent devotion to the fair sex and the multitude of its exquisite pretensions, chivalry was the degradation of the highest and tenderest human instincts—the veritable curse of the course of true love. Such a statement presents itself to the romantic believer as a terrible counterblast, but it is true, nevertheless. The records of the treasury and the law courts of those days, in furnishing the experience of popular life deeply marked by the worst shades of modern shortcomings, provide the fullest proof.

Chivalry did not make marriages, at least in the sense of those born of love's young dream; it entirely ignored all sexual affections and sold its victims with ruthless indifference to all mutuality.

There were not two parties to its bargains. There was only one, who was always the third of the group and the one interested, not in satisfying the yearnings of the impassioned, but in a pecuniary sense of their value. He was the vender and might be either king or baron. But whichever he was, he was the incarnation of unscrupulous power. The matrimonial transactions of chivalry were mercenary. To them there were no "contracting parties" in the shape of whispering lovers, ardent swains and coy maidens. On the other hand, there was but sullen indifference or hating compliance. Chivalry canted about its faith in women and the purity of its own motives, because it could not sing of love. It may be said that it so canted because it knew it must cant.

It knew that its marriages had not been made in heaven and of ethereal sentiment. They were coarsely bargained for, either in the king's exchequer or in the open market place. Chivalry knew itself as a social falsity and the parent of lust. As a consequence the "lower orders" have had to give us the nomenclature of our love affairs. Chaucer, the very mirror of the era of chivalry, has typified lust with his master hand, but he has no picture of the gratified tenderness of longing youth. In his surroundings it was not suffered to exist. These surroundings had no terms to enumerate the ardent swains and coy maidens of rusticity. But if the aristocracy can produce no one instance of the coy maiden, and the rustic sweetheart remains to mock the dubious fiancée, it has a wealth of the arts of diplomacy, and an inexhaustible list of

the terms of intrigue. Chivalry gave expression to the word "maitresse," which may have and had the funniest of meanings.—New York Herald.

### Decline of the Leech Trade.

The medicative leech is now practically a thing of the past. The falling off in the demand for leeches by the medical profession is quite astonishing, as may be judged from the fact that in the year 1845 the two largest hospitals in London called for about 50,000 of them, whereas now these institutions order only 50 or 100 leeches at irregular and infrequent intervals.

We are informed by well known leech importers that the trade in leeches has been subject to such fierce competition that the price has been brought down almost to nil. The quotation for a single hundred leeches at the present moment is fixed at a rate which is little more than half what the great hospitals paid for their enormous leech supplies in 1845.

At that time the importation of leeches was carried on by means of sailing boats plying to and from Smyrna; but, owing to the difficulties of transfer and the irregular arrival of the boats, many attempts were made to conserve and breed leeches in England. One enterprising man established three ponds "on his own" at the top of Brixton hill and used to dispose of many thousands of leeches weekly. His successors, however—our informants—have a gross annual output of only 40,000, not a tithe of the business done half a century ago.

Assuredly the leech has seen his best days. With the old regime, when cupping and bleeding were the sheet anchors of surgery, the leech all but disappeared. So constant was his employment in mediaeval times that his name furnished a synonym for the medical profession, and the doctor came to be known impolitely as "the leech," perhaps a subtle allusion to the rapacity for fees which characterized the profession in those times.

At present the Hungarian speckled leech is most in request. It is unsafe to use the leeches found in some of our ponds in England, for their bite is dangerous, often giving rise to blood poisoning.—Household Words.

### The Clerk Paid It.

During Andrew Jackson's presidency a certain clerk in the treasury department showed a marked disinclination to paying his board bill. He had signed notes, but his landlady could collect no money. In despair she went to the White House to see Jackson. She told her story, and he requested her to get the clerk's note for the account. She obeyed and carried the note to Andrew Jackson, who, after glancing over it,

affixed his signature to the back. "Now, madam," said he, "put that in the bank, and we shall see which of us shall have to pay you the money." The note was duly deposited and was paid by the clerk, who afterward apologized to Jackson and promised to mend his ways.—Exchange.

### League of American Penwomen.

A new press club has been formed in Washington. It was the outgrowth of a coterie of journalists who met informally from time to time during the last season in the Wimodaughis parlors. Believing that mutual benefit might come from union, a body of active press women and authors became incorporated under the name of the League of American Penwomen. Seventeen charter members, two new members and eight honorary members make up the list. The last mentioned are Mrs. Jane Cunningham Croly, Mrs. Phoebe Hearst, Miss Ellen T. Longfellow, Mrs. May Dudley Vought, Mrs. Dora Harvey Munyon, Mrs. Emily Edson Briggs (Olivia), Mrs. Marion A. McBride and Mrs. Caroline F. Frye. Only such persons as are actively engaged in journalism or press work or who are authors are eligible to membership in the league. Honorary members must have rendered aid or encouragement to the cause of penwomen.—Exchange.

### The Klondiker.

Gold in my haversack, gold  
Held in the belt at my girth,  
Nuggets which I have cajoled  
Out of the maw of the earth.  
Gold in the mishapen bags,  
Made of my sleeves with a rude  
Skill. There is wealth in my rags,  
Aye, and I'm dying for food!

Gold like the soft of the land,  
Gold that is free as the dirt,  
Gold in my trousers legs and  
Gold in the fur of my shirt.  
Who is there wealthy as I?  
Who has equivalent cash?  
Heaven! I wish it could buy  
Liverwurst, pig's feet and hash.

Gold in my hat and my socks  
(What there is left of the same),  
Little irregular rocks,  
Root of all evil and shame.  
Gold in my handkerchief, gold  
Packed in my underwear legs.  
Gods, how I'd like to unfold  
Three stacks of wheat and some eggs!

Well, let me die if I must,  
Chilblained and famished and cold.  
Let me sink here with my dust,  
Aye, and my nuggets of gold.  
Death, ghastly death, come to me,  
Wealthiest man among men.  
Come with sweet dreams. Let me see  
Merry old Clark street again!

Let me look down its long lines  
(Here from my deathbed of ice),  
Glaring with red painted signs  
Telling of food and its price.  
Bring me the uproar and push.  
Show me those supper hour scenes.  
Plutus am I, but I wish  
Gold could be eaten like beans.

Time Honored Notions of Olden Days Which Don't Stand the Test.

We all want to consider the days of chivalry as the golden days—never to be recalled—for womankind. This is by implication a rank injustice to our own time.

With all its fine expressions of ardent devotion to the fair sex and the multitude of its exquisite pretensions, chivalry was the degradation of the highest and tenderest human instincts—the veritable curse of the course of true love. Such a statement presents itself to the romantic believer as a terrible counterblast, but it is true, nevertheless. The records of the treasury and the law courts of those days, in furnishing the experience of popular life deeply marked by the worst shades of modern shortcomings, provide the fullest proof.

Chivalry did not make marriages, at least in the sense of those born of love's young dream; it entirely ignored all sexual affections and sold its victims with ruthless indifference to all mutuality.

There were not two parties to its bargains. There was only one, who was always the third of the group and the one interested, not in satisfying the yearnings of the impassioned, but in a pecuniary sense of their value. He was the vender and might be either king or baron. But whichever he was, he was the incarnation of unscrupulous power. The matrimonial transactions of chivalry were mercenary. To them there were no "contracting parties" in the shape of whispering lovers, ardent swains and coy maidens. On the other hand, there was but sullen indifference or hating compliance. Chivalry canted about its faith in women and the purity of its own motives, because it could not sing of love. It may be said that it so canted because it knew it must cant.

It knew that its marriages had not been made in heaven and of ethereal sentiment. They were coarsely bargained for, either in the king's exchequer or in the open market place. Chivalry knew itself as a social falsity and the parent of lust. As a consequence the "lower orders" have had to give us the nomenclature of our love affairs. Chaucer, the very mirror of the era of chivalry, has typified lust with his master hand, but he has no picture of the gratified tenderness of longing youth. In his surroundings it was not suffered to exist. These surroundings had no terms to enumerate the ardent swains and coy maidens of rusticity. But if the aristocracy can produce no one instance of the coy maiden, and the rustic sweetheart remains to mock the dubious fiancée, it has a wealth of the arts of diplomacy, and an inexhaustible list of

the terms of intrigue. Chivalry gave expression to the word "maitresse," which may have and had the funniest of meanings.—New York Herald.

### Decline of the Leech Trade.

The medicative leech is now practically a thing of the past. The falling off in the demand for leeches by the medical profession is quite astonishing, as may be judged from the fact that in the year 1845 the two largest hospitals in London called for about 50,000 of them, whereas now these institutions order only 50 or 100 leeches at irregular and infrequent intervals.

We are informed by well known leech importers that the trade in leeches has been subject to such fierce competition that the price has been brought down almost to nil. The quotation for a single hundred leeches at the present moment is fixed at a rate which is little more than half what the great hospitals paid for their enormous leech supplies in 1845.

At that time the importation of leeches was carried on by means of sailing boats plying to and from Smyrna; but, owing to the difficulties of transfer and the irregular arrival of the boats, many attempts were made to conserve and breed leeches in England. One enterprising man established three ponds "on his own" at the top of Brixton hill and used to dispose of many thousands of leeches weekly. His successors, however—our informants—have a gross annual output of only 40,000, not a tithe of the business done half a century ago.

Assuredly the leech has seen his best days. With the old regime, when cupping and bleeding were the sheet anchors of surgery, the leech all but disappeared. So constant was his employment in mediaeval times that his name furnished a synonym for the medical profession, and the doctor came to be known impolitely as "the leech," perhaps a subtle allusion to the rapacity for fees which characterized the profession in those times.

At present the Hungarian speckled leech is most in request. It is unsafe to use the leeches found in some of our ponds in England, for their bite is dangerous, often giving rise to blood poisoning.—Household Words.

### The Clerk Paid It.

During Andrew Jackson's presidency a certain clerk in the treasury department showed a marked disinclination to paying his board bill. He had signed notes, but his landlady could collect no money. In despair she went to the White House to see Jackson. She told her story, and he requested her to get the clerk's note for the account. She obeyed and carried the note to Andrew Jackson, who, after glancing over it,

affixed his signature to the back. "Now, madam," said he, "put that in the bank, and we shall see which of us shall have to pay you the money." The note was duly deposited and was paid by the clerk, who afterward apologized to Jackson and promised to mend his ways.—Exchange.

### League of American Penwomen.

A new press club has been formed in Washington. It was the outgrowth of a coterie of journalists who met informally from time to time during the last season in the Wimodaughis parlors. Believing that mutual benefit might come from union, a body of active press women and authors became incorporated under the name of the League of American Penwomen. Seventeen charter members, two new members and eight honorary members make up the list. The last mentioned are Mrs. Jane Cunningham Croly, Mrs. Phoebe Hearst, Miss Ellen T. Longfellow, Mrs. May Dudley Vought, Mrs. Dora Harvey Munyon, Mrs. Emily Edson Briggs (Olivier), Mrs. Marion A. McBride and Mrs. Caroline F. Frye. Only such persons as are actively engaged in journalism or press work or who are authors are eligible to membership in the league. Honorary members must have rendered aid or encouragement to the cause of penwomen.—Exchange.

### The Klondiker.

Gold in my haversack, gold  
Held in the belt at my girth,  
Nuggets which I have cajoled  
Out of the maw of the earth.  
Gold in the mishapen bags,  
Made of my sleeves with a rude  
Skill. There is wealth in my rags,  
Aye, and I'm dying for food!

Gold like the soil of the land,  
Gold that is free as the dirt,  
Gold in my trousers legs and  
Gold in the furl of my shirt.  
Who is there wealthy as I?  
Who has equivalent cash?  
Heavens! I wish it could buy  
Liverwurst, pig's feet and hash.

Gold in my hat and my socks  
(What there is left of the same),  
Little irregular rocks,  
Root of all evil and shame.  
Gold in my handkerchief, gold  
Packed in my underwear legs.  
Gods, how I'd like to unfold  
Three stacks of wheat and some eggs!

Well, let me die if I must,  
Chillblained and famished and cold.  
Let me sink here with my dust,  
Aye, and my nuggets of gold.  
Death, ghastly death, come to me,  
Wealthiest man among men.  
Come with sweet dreams. Let me see  
Merry old Clark street again!

Let me look down its long lines  
(Here from my deathbed of ice),  
Glaring with red painted signs  
Telling of food and its price.  
Bring me the uproar and push.  
Show me those supper hour scenes.  
Plutus am I, but I wish  
Gold could be eaten like beans.

OUR Christmas gift will doubtless be the most valuable given anywhere in Ohio this year.

If silver continues to fall the Ohio Democratic platform will not be big enough to bear the weight of the campaign.

Now let us all pull together, and the Ceramic City will be what it was always intended it should be, the very center of the potting industry.

If the Democrats will kindly return us some of the speakers who talked free silver here a year ago we will be thankful. It will make Republican success doubly sure.

THE political party which in future days attempts to show the people of East Liverpool that increased tariff does not mean increased wages, will find scant sympathy in this town.

THE Eighteenth district man seems to be even more favored than the remainder of his Ohio brethren. He is always coming to the front somewhere, and the announcement that John H. Clarke may be the candidate of the gold Democrats for governor is but another proof that he cannot be kept down.

## THE GOOD NEWS.

The news from Atlantic City is good news. To the interests of East Liverpool it means much. Not only has an annoying and expensive strike been averted, but that prosperity for which the people have so earnestly hoped is about to break forth. The dark shadows of commercial depression and panic are slowly sweeping from the land, and prominent among the people, who will reap the reward of their waiting are the operative potters and the community dependent upon them for a livelihood. Few industries felt the cruel shock of low tariff as did the manufacture of pottery, and few will regain its feet with as little effort and recover its old time vigor.

## WASTING GOOD MONEY.

The plan to continue the publication of the Congressional Record long after congress has adjourned, by printing the speeches of many members in search of fame among their constituents, is among the most senseless practices of this government. It only fools a few, and does no good. The great majority of men who daily receive the Record know those speeches were never delivered in the halls of congress, and so far as dealing with the questions in hand is concerned are worthless. The Record is seldom read and less often preserved. While congress is in session the Record is at times interesting, when it is used to print the literary efforts of members who are seldom heard of in any other way it seems a waste of money.

## Change the Plan.

Some time ago the city employed one of its street men to gather waste paper from the streets in the evening. Now it seems the work has been neglected as the amount of paper on the streets the last three days is as much as before he began work.

# ALEX AND HIS GRIP

Boarded the Ben Hur Not Far From His Home.

HE WORE GOOD CLOTHES

And Walked With Confident Step, Although He Went to His Room and Remained There as Soon as He Had Settled With the Clerk.

A well known lady of the city was a passenger on the Ben Hur when it left the wharf yesterday afternoon, and seating herself comfortably where she could command a view of the river prepared to enjoy her trip.

When the boat reached a point just across the Pennsylvania line the pilot saw a man standing on the bank signaling for a landing, and the boat went to shore. The man carried a heavy valise when he walked across the plank, and the lady thinking she recognized him observed him closely when he appeared on deck. He walked rapidly to the clerk's desk, and was assigned a room. Taking his grip he retired, and as she left the boat at a point this side of Rochester she did not see him again.

The man was Alex W. Stevenson, and he looked very well. The lady could not be mistaken for she knew him when he was in this city. He was well dressed, and walked as though a number of people in East Liverpool did not want to interview him for a few minutes. The size and bulging sides of his valise prompted the belief that he was bound for a long journey and expected to remain for some time.

It was learned today that Stevenson returned to his home several days ago, having been absent since the preceding Sunday night when he was driven by a friend to Burgettstown. The opinion is expressed that many months will elapse before he returns to this section.

## NO HEARING.

The Tyndall Case Was Postponed Until After Vacation.

The hearing of the case against William Tyndall for bigamy was postponed this morning until Wednesday, Aug. 18, at 8 o'clock. The postponement was made necessary because his attorney, J. E. McDonald, declined to do any pleading during the lawyers' vacation, and because of the absence of Miss Lutton, who is reported to be Tyndall's second wife. The following witnesses were present and were notified to appear on the date above mentioned: Mrs. Charles Haverly, Mrs. Houser, George Morton, Mrs. Shreeves, Mrs. James March, Dr. Detchon, Poke Green, T. M. Bradley, Chas. Demerling, Anna Demerling, known as Mrs. Tyndall, Wm. Beardmore.

The following persons who were summoned did not appear: Mr. and Mrs. J. C. Lutton, Julia Byland, W. T. McLane, E. D. Marshall.

## GOOD TIMES ARE HERE.

That Is What the County Treasury Shows.

LISBON, Aug. 9.—[Special]—Superintendent Riddle, of the infirmary, this morning took Mrs. Salisbury to Newburg asylum. Sheriff Gill will take Mrs. Harriet Fynes, of Palestine, there tomorrow.

The books of Treasurer Cameron show a total delinquency in the tax collection of \$16,136.43, the lowest for a number of years. A comparison with last year shows a difference of \$52,271.19, the delinquency at that time amounting to \$68,407.62.

A marriage license was granted A. E. Underwood and Mary Corns, Liverpool.

## NO UNION MEN ALLOWED.

The Lisbon Tin Company Discharged Thirty Today.

LISBON, Aug. 9.—[Special]—Thirty rollers, doublers, and other experienced employes of the tin mill were discharged by the management this morning. The mill has been a non-union plant, but for some time an effort has been in progress to organize the workmen, and an investigation following a rumor of this caused the discharge of the men today. A crew will be brought from Bridgeport tonight to take their places. The men were amazed when the action was made known. It is believed there will be other vacancies.

## Broke Her Leg.

Miss Ardie Nelson, of Second street, while spending the day in the woods out Lisbon road with a crowd of young people, stumbled over a large stone and broke her left leg. She was taken to her home where the fracture was reduced.

## A BIG HEART.

What the Ackerman Autopsy Showed the Doctors.

The result of the examination of the body of Christian Ackerman last Saturday afternoon is given by a physician in these words:

"As a result of hypertrophy and dilatation the heart was found to be nearly twice as large as normal, and when distended with blood would have been more than twice the size of the natural heart. In addition to the general diseased condition the disease proper that caused death was located in the right side of the heart, the disease being stenosis or hardening of the valves so that they could no longer perform their normal function, which had progressed to such degree and extent that the only wonder was that the man had lived as long as he did."

## GONE TO HER REWARD.

Miss Lizzie Maas Died In Cleveland Yesterday.

Miss Lizzie Maas died yesterday afternoon at Edgewater Beach, Cleveland, after a lingering illness from catarrh of the stomach. She was aged 26 years. Deceased was well known in the city and for a number of years clerked in the store of Ferguson & Hill until her declining health caused her to resign her position some four months ago. She was a member of the Daughters of Liberty, Daughters of America, the Rebeckahs, and the First M. E. church of this city and was beloved by all who knew her. The remains were today taken to Marietta for interment.

## The Red Rocks.

In sight of the Erie tracks, between Susquehanna and Great Bend, are the Red rocks, a red cliff standing above the Susquehanna river. Near them can be seen traces of the grave of a beautiful Indian maiden, the daughter of a famous chief. She was betrothed to a young brave, a member of her father's tribe, then encamped near here. Her father desired her to marry the son of the chief of the neighboring tribe, and the wish of the paternal ancestor usually counted for something.

In consequence she resolved to fly to the "happy hunting grounds," and one night she stole noiselessly from her wigwam, and, with the death song upon her lips, flung herself from the high cliff, her life's blood staining the rocks below. And to this day they have retained the reddish hue which the rains and floods of a century have failed to efface.

When the maiden's lover saw her mangled corpse, he retired to a cave in the mountains and never again was seen alive. Forty years later his petrified body was found in the cave by a wandering remnant of the tribe. Under his body were found the long raven tresses of the old chief's daughter.—New York Press.

## His Opportunity.

Fuddy—There seems to have been quite a change come over Blowser. They say he gets up to speak almost every evening at the revival meetings in the Beulah street church.

Duddy—Yes, it gives him an opportunity of calling people names. It is some satisfaction to him to be able to call folks sinners. And, then, you know, it isn't actionable, as "thieves" and "rascals" would be. But you make a mistake when you think that a change of heart has made any perceptible change in Blowser himself.—Boston Transcript.

## Homemade Fly Catcher.

Fill glass tumblers to within half an inch of the top with soapy water. Cut several squares of pasteboard to cover them and punch holes in the middle of these the size of a nickel. Spread the underside with the following mixture: Sweeten a half cupful of sour milk with sugar or molasses and thicken to a batter with flour. Set the glasses outside the door on a table or shelf, and they will soon be filled with flies. The more the mixture ferments the more rapidly the flies are caught. This mixture may be kept in a cup and used occasionally on the pasteboard, two or three times a day as needed. The flies will soon be caught, and there will be none around the doors to go in at every opportunity.—Mrs. J. F. Roberts in Housekeeper.

## Park People Improving.

Frank Conkle, of Park, who had two ribs broken last week by being gored by a steer, is improving and will recover.

Harvey Williams, of the same place, who was bitten by a snake, last Friday, is also improving.

## On the River.

The river fell during the night, and the marks at noon showed five feet of water at this port. Passed up, Keystone State, Kanawha, and Ben Hur; down, Princess. The Ben Hur received a large cargo of ware at this port.

The young ladies of the Women's Christian Temperance union home will give a lawn fete on Tuesday evening, Aug. 10. Entertainment given by the phonograph. You are all invited to help the good work along. Admission 10 cents.

Spread the underside with the following mixture: Sweeten a half cupful of sour milk with sugar or molasses and thicken to a batter with flour. Set the glasses outside the door on a table or shelf, and they will soon be filled with flies. The more the mixture ferments the more rapidly the flies are caught. This mixture may be kept in a cup and used occasionally on the pasteboard, two or three times a day as needed. The flies will soon be caught, and there will be none around the doors to go in at every opportunity.—Mrs. J. F. Roberts in Housekeeper.

## HE WANTED A DOCTOR

Because He Believed He Had Been Poisoned.

BLAMED IT ON HIS WIFE

He Ran About the Streets, and Expected Every Minute to Fall Over Dead, but the Township Authorities Thought He Was Not In a Dangerous Condition.

Jackson Holden spent Saturday night in jail firmly believing that he had been poisoned and that before Sunday morning came his stiffened form would be cold and still on a cot at city hall.

Now Jackson was mistaken, although it took some time to convince him of his error. Early Saturday evening he entered the Golding block at Fifth and Washington streets, and ran wildly about in search of a physician. He shouted aloud and declared over and over again that he was in great agony, and must have help or he would die. It happened that all the doctors were attending the Ackerman autopsy, but that did not influence Jackson. If he could not find a doctor he could find a drug store. After swallowing a dose which was intended for just such cases, Jackson said he was better, but the improvement did not last. He said he lived in West Virginia, and sometime ago his wife took their seven children and went to Coraopolis. He had gone there, he said, last Wednesday to see them, and had been poisoned.

The man was at a loss to know what to do with himself, but, like all other strangers in trouble, found his way to the office of the poor authorities. There he met Trustee Lloyd, who was not long in reaching the conclusion that Jackson was not well. He was locked up, and a message sent to Coraopolis.

At city hall Holden told a somewhat different story. He stated that he resided at Coraopolis, and had some trouble with his wife. She left the house, he said, to call a policeman, and he ran away. He did not sleep Saturday night, but walked the floor of his cell muttering and at times waving his arms. He was taken to Pittsburg at noon.

When Holden and Trustees Lloyd and Albright got on the noon train for Pittsburg today, a lady setting in the rear of the car recognized Holden, and as the train left the station she was talking to Trustee Lloyd of the case. To a reporter the lady said he had a family in Coraopolis, and they were well to do people. The chances are that he was taken to that place instead of Pittsburg.

### TALKED TO YOUNG MEN.

Prof. O. S. Reed Addressed the Association Meeting.

Reverend Reed spoke to a large audience of young men at the Young Men's Christian association, yesterday afternoon, on the "Experiences of Solomon." In part the speaker said: "When Scott wrote of Napoleon he dipped his pen in gall, and he was applauded by only a few of his friends. In reading the works of Solomon we find there are 3,000 proverbs and 1,005 songs. The wise and foolish proverbs of this great man are intermingled. Solomon held a round of pleasure and drank it to the death. It was Solomon who declared all is vanity, and all go unto one place. A good parent gives the child the best education possible, but there is a time when the child must take a road for its future life. The broad way is filled with the music of the dance, the sounds of revelry are heard on its avenues, and to the mind seem beautiful. On the narrow road Christ is at the end. He says there is no theater to enter, no circus to open the pavilion, but life everlasting is awaiting you. Solomon says: 'Young men, keep your father's commandments and forsake not the law of your mother.' When you go out build them tight around your heart."

Reverend Swift preached an interesting sermon yesterday morning to a large audience in the First M. P. church. His subject was from Matthew xiv. 12.

The Committees Talked Long Before It Was Finally Decided That When the Potteries Close For the Holidays the Scale Now In Force Will Die.

The cheering news reached here Saturday night that the operative and manufacturing potters had reached an agreement, and the new scale would become operative next Christmas day.

The conference at Atlantic City lasted until late in the evening, and was ended by the adoption of the following resolution:

"Resolved, That on December 25, 1897, the wages of the operative potters be advanced to an equivalent of the reduction of 12½ per cent made in the wages of operatives in 1894, upon a uniform working price list, to be agreed upon mutually, both to take effect simultaneously."

It is generally believed that the list will be agreed upon in a short time and there will be no future controversy.

### IN HOLLAND.

Some Curiosities of Etiquette in the Netherlands.

An unmarried girl in Holland always takes the right arm of her escort, while the married one selects the left side of her husband. So deeply has this custom entered into the life of Hollanders that at a wedding the bride enters the church on the right side of the groom, the young wife returning on the left side of her husband when the ceremony has been performed. No unmarried lady in this country can dream of going to church, a concert or any other place of public assemblage without the escort of parents or male members of the family. She cannot take a walk, pay a visit or go shopping unaccompanied by her mother or some married lady friend.

The Holland young lady does not go to the theater with the gentleman who has been introduced to her a week before, neither does she vary her beau to suit her dress or complexion. Unmarried daughters are chaperoned to all places of amusement. Even dancing parties are interspersed with songs, recitations, etc., for the amusement of elders of the family who sit around tables socially sipping their coffee, wine or other favored beverage, while the young members glide over the waxed floors to the fitful strains of music. Here the young must make the best of their opportunities, for when it pleases the parents to seek the quiet solace of the house the daughters also quit the gaiety of the ballroom. — Philadelphia Times.

"Don't you take any chances. I tried the same thing once and got shook because I used a semicolon where there should have been a comma." — Washington Star.

# TOOLE PITCHED BALL

And Our Boys Could Not Touch Him.

LET US HAVE A FEW RUNS

But Not Until After the Success of the Visitors Was Assured and We Had Lost the Game—Good Playing at Lisbon—Godwin Is Sorry.

The ball game Saturday afternoon at Rock Spring park was largely attended, and resulted in victory for the Hollidays by a score of 19 to 11.

The home team scored two runs in the first inning, but did not score again until the eighth inning when, with the score 18 to 2 in their favor, the Hollidays let up and the home team scored nine runs in the eighth and ninth innings.

The feature of the game was the pitching of Toole, who broke boards in the backstop with the greatest ease, and had the home team at his mercy. The score:

## Sporting Notes.

Although Winnie Mercer Saturday held the Brooklyn team down to seven hits Washington lost the game 7 to 1 owing to errors.

Saturday afternoon Micky Lynch pitched for Salineville, and held the Somerset team down to five hits.

The Liverpool ball players who are with the Lisbon team are doing phenomenal work. In the two games played against Girard, Nibbo Carey accepted 24 chances at second base without an error and made eight hits. Hester at third in the Saturday game accepted 10 chances without an error, while in left Dennis McCarran had four chances with one error. In middle field Finch played good ball and his hitting was a feature of the games. The Lisbon manager endeavored to get McCarran and Hester to remain with the team the balance of the season but was unsuccessful.

The Phoenix club and the Wellsville clerks will play ball in the near future.

The Olympic football team will meet this evening for the purpose of organizing for the season.

Percy Baxter and Dennis McCarran left this morning with the Toronto team for Coshocton.

A letter received this morning from John Godwin states that he is at present doing utility work with the Athletics. He was very sorry to hear Liverpool lost a game in Wellsville, and says if they play for \$100 a side he would like very much to take part in the games.

## A HOT NIGHT ON SMOKY.

Two Officers Kept the Loungers Moving.

There were lively times on Smoky Saturday night. Not a few drunks wandered about the street, and a number of fights of more or less importance attracted attention. Officers Moore and Whan spent a goodly portion of their time looking after the crowd, and keeping loungers from congregating on the corners. No trouble of a serious nature occurred.

## Fernwood Won.

The Fernwood and Echo Dell camping clubs came together in a pigeon shoot last Saturday on the grounds of the last named organization, and Fernwood won. It was a spirited contest.

# Klondyke

## The Land of Golden Nuggets.

JOSEPH LADUE,

the new Bonanza King of the Klondyke Gold Regions, gives the facts. His book reads like "The Arabian Nights," BUT Joseph Ladue KNOWS whereof he writes. He was the first man on the spot when the first gold was discovered last August, 1896. He located one rich claim and immediately purchased twelve others at a low price before their value was known. He has refused \$100,000 for any ONE of these claims, as they are rich with virgin gold nuggets, beyond the dream of avarice. Joseph Ladue then

## Established Dawson City

at the mouth of the Klondyke and Yukon Rivers, by erecting the first house in the region in September, one month after the gold was first discovered. He bought 178 acres from the government on the city site where his town lots 150x50 are now selling for \$5,000 each.

Mr. Ladue was fortunate enough to be successful in his trading post investments to have on hand ample capital to carry out his plans, and there is no man living who is better posted on Alaska and the great North West Territories than Mr. Joseph Ladue. He has just returned from that country to his old home in Schuler Falls, N. Y., where he passed a large portion of his boyhood and early manhood. Mr. Ladue left his home nearly twenty years ago to seek his fortune in the west going first to the Black Hills, where he was successful in gold mining, thence to Arizona and the Pacific coast and finally located in Alaska and the northwest, where he has covered almost the entire country since 1882. Mr. Ladue is a typical pioneer: strong, hardy and resolute—a man of iron as one must needs be to go through the hardships he has and come out with a constitution unbroken and unimpaired at about the age of 43. Mr. Ladue has not only worked his muscles to good advantage to himself with the result of an abundance of the world's goods, far beyond the dreams of men, but he has evidently all this time been closely observing the conditions of that strange country—the Yukon Valley—which has so suddenly become one of the great centers upon which human interest throughout the world is focussed.

When the wonderful stories began to come down from the Yukon country it was naturally concluded that it was at least half exaggeration. That any such amount of gold could be taken in so short a time from a country like that under the most most unfavorable conditions was held to be incredible. But when the great bags of virgin gold began to be poured out upon mint counters in San Francisco under the eyes of the whole world (for modern journalism does this, annihilating time and space) people began to wonder and the wonder grew day by day as the real facts were disclosed, and now people who are well informed as to the facts declare that half the truth has not been told of the golden treasures of the Yukon Valley.

As we have already said, there is no man today alive who knows more about this wonderful country than does Mr. Ladue. What makes his talk of it specially interesting and reliable is the fact that his knowledge of it is practical. It has not been gained from hearsay nor from desultory visits made now and then at certain favorable seasons of the year, but from steady living there through the long summer days and the long winter nights, year in and year out for 15 years, where he now owns the best mining claims on the Klondyke and its tributaries.

In presenting his book to the public we do so knowing that it is by an authority on the subject of which he writes. His first work entitled

## "Klondyke Nuggets"

is a brief description of the new gold regions, and anyone desiring authentic information should not fail to avail themselves of our

## Find a Will Made Many Years Ago.

Mrs. Elizabeth Kempf, the wife of Frederick Kempf, a grocer in Graham avenue, Brooklyn, died in April, 1894, but it was only recently that a will, which she executed in May, 1874, shortly after her marriage, was discovered. The will provided that at her death her husband should receive all her real and personal estate, now valued at over \$15,000, unless he remarried, in which case it was to revert to their children, three of whom, a son and two daughters, survived her. Two years after his wife's death Mr. Kempf, who was ignorant that his wife's will was in existence, remarried, his second wife also having a small fortune.

Mr. Kempf, while surprised, was entirely satisfied with the new turn in his affairs and will co-operate with his children in having the will probated as soon as possible.—Exchange.

## Consumptives Form a Club.

The Loomis Sanitarium For Consumptives at Liberty, N. Y., now has 74 patients, the largest number since the institution was established. An organization to be known as the Loomis Social club has been formed among the patients. The club will soon begin the publication of a weekly bulletin called The Weekly Tapioca.

The first system of modern fortification—that is, after the invention of artillery—was that of the bastion or Italian system, a bastion being a military work consisting of two faces and two flanks.

# TOOLE PITCHED BALL

And Our Boys Could Not Touch Him.

LET US HAVE A FEW RUNS

But Not Until After the Success of the Visitors Was Assured and We Had Lost the Game—Good Playing at Lisbon—Godwin Is Sorry.

The ball game Saturday afternoon at Rock Spring park was largely attended, and resulted in victory for the Hollidays by a score of 19 to 11.

The home team scored two runs in the first inning, but did not score again until the eighth inning when, with the score 18 to 2 in their favor, the Hollidays let up and the home team scored nine runs in the eighth and ninth innings.

The feature of the game was the pitching of Toole, who broke boards in the backstop with the greatest ease, and had the home team at his mercy. The score:

In middle field Finch played good ball and his hitting was a feature of the games. The Lisbon manager endeavored to get McCurran and Hester to remain with the team the balance of the season but was unsuccessful.

The Phoenix club and the Wellsville clerks will play ball in the near future. The Olympic football team will meet this evening for the purpose of organizing for the season.

Percy Baxter and Dennis McCurran left this morning with the Toronto team for Coshocton.

A letter received this morning from John Godwin states that he is at present doing utility work with the Athletics. He was very sorry to hear Liverpool lost a game in Wellsville, and says if they play for \$100 a side he would like very much to take part in the games.

## A HOT NIGHT ON SMOKY.

Two Officers Kept the Loungers Moving.

There were lively times on Smoky Saturday night. Not a few drunks wandered about the street, and a number of fights of more or less importance attracted attention. Officers Moore and Whan spent a goodly portion of their time looking after the crowd, and keeping loungers from congregating on the corners. No trouble of a serious nature occurred.

## Fernwood Won.

The Fernwood and Echo Dell camping clubs came together in a pigeon shoot last Saturday on the grounds of the last named organization, and Fernwood won. It was a spirited contest.

# Klondyke

## The Land of Golden Nuggets.

JOSEPH LADUE,

the new Bonanza King of the Klondyke Gold Regions, gives the facts. His book reads like "The Arabian Nights," BUT Joseph Ladue KNOWS whereof he writes. He was the first man on the spot when the first gold was discovered last August, 1896. He located one rich claim and immediately purchased twelve others at a low price before their value was known. He has refused \$100,000 for any ONE of these claims, as they are rich with virgin gold nuggets, beyond the dream of avarice. Joseph Ladue then

## Established Dawson City

at the mouth of the Klondyke and Yukon Rivers, by erecting the first house in the region in September, one month after the gold was first discovered. He bought 178 acres from the government on the city site where his town lots 150x50 are now selling for \$5,000 each.

Mr. Ladue was fortunate enough to be successful in his trading post investments to have on hand ample capital to carry out his plans, and there is no man living who is better posted on Alaska and the great North West Territories than Mr. Joseph Ladue. He has just returned from that country to his old home in Schuler Falls, N. Y., where he passed a large portion of his boyhood and early manhood. Mr. Ladue left his home nearly twenty years ago to seek his fortune in the west going first to the Black Hills, where he was successful in gold mining, thence to Arizona and the Pacific coast and finally located in Alaska and the northwest, where he has covered almost the entire country since 1882. Mr. Ladue is a typical pioneer: strong, hardy and resolute—a man of iron as one must needs be to go through the hardships he has and come out with a constitution unbroken and unimpaired at about the age of 43. Mr. Ladue has not only worked his muscles to good advantage to himself with the result of an abundance of the world's goods, far beyond the dreams of men, but he has evidently all this time been closely observing the conditions of that strange country—the Yukon Valley—which has so suddenly become one of the great centers upon which human interest throughout the world is focussed.

When the wonderful stories began to come down from the Yukon country it was naturally concluded that it was at least half exaggeration. That any such amount of gold could be taken in so short a time from a country like that under the most most unfavorable conditions was held to be incredible. But when the great bags of virgin gold began to be poured out upon mint counters in San Francisco under the eyes of the whole world (for modern journalism does this, annihilating time and space) people began to wonder and the wonder grew day by day as the real facts were disclosed, and now people who are well informed as to the facts declare that half the truth has not been told of the golden treasures of the Yukon Valley.

As we have already said, there is no man today alive who knows more about this wonderful country than does Mr. Ladue. What makes his talk of it specially interesting and reliable is the fact that his knowledge of it is practical. It has not been gained from hearsay nor from desultory visits made now and then at certain favorable seasons of the year, but from steady living there through the long summer days and the long winter nights, year in and year out for 15 years, where he now owns the best mining claims on the Klondyke and its tributaries.

In presenting his book to the public we do so knowing that it is by an authority on the subject of which he writes. His first work entitled

## "Klondyke Nuggets"

is a brief description of the new gold regions, and anyone desiring authentic information should not fail to avail themselves of our

## Find a Will Made Many Years Ago.

Mrs. Elizabeth Kempf, the wife of Frederick Kempf, a grocer in Graham avenue, Brooklyn, died in April, 1894, but it was only recently that a will, which she executed in May, 1874, shortly after her marriage, was discovered. The will provided that at her death her husband should receive all her real and personal estate, now valued at over \$15,000, unless he remarried, in which case it was to revert to their children, three of whom, a son and two daughters, survived her. Two years after his wife's death Mr. Kempf, who was ignorant that his wife's will was in existence, remarried, his second wife also having a small fortune.

Mr. Kempf, while surprised, was entirely satisfied with the new turn in his affairs and will co-operate with his children in having the will probated as soon as possible.—Exchange.

## Consumptives Form a Club.

The Loomis Sanitarium For Consumptives at Liberty, N. Y., now has 74 patients, the largest number since the institution was established. An organization to be known as the Loomis Social club has been formed among the patients. The club will soon begin the publication of a weekly bulletin called The Weekly Tapioca.

The first system of modern fortification—that is, after the invention of artillery—was that of the bastion or Italian system, a bastion being a military work consisting of two faces and two flanks.

## Summer Rain Song.

What do we sigh for  
Kase it's cloudy overhead?  
Sky is des a-cryin'  
Kase de sun is gone ter bed.  
Can't be always sunny.  
Hush, my li'l' one!  
Go ter sleep, my honey.  
En you'll wake up in de sun.

Go ter sleep.

Go ter sleep.  
Dar's gold in de rainbow, en you gwine ter git a heap.

Ain't it time for bringin'

Er de dark along?

Ain't de rain a-singin'

Of a by by song?

Close yo' eyes, my honey.

Hush, my li'l' one.

Can't be always sunny.

But you'll wake up in de sun.

Go ter sleep.

Go ter sleep.  
Dar's gold in de rainbow, en you gwine ter git a heap.

# FELL FROM HIS BUNK

A Prisoner at City Hall Broke His Arm.

ALEX PENNY WAS VERY DRUNK

He Was Locked Up Until He Could Become Sober, but During the Night Rolled Over Once Too Often—Lives at Calcutta and Is a Coal Miner.

Alex Penny, a colored man who finds employment at the coal mine operated by Frank Rauch beyond Calcutta, fell from a bunk in a cell at the city prison, early yesterday morning, and broke his arm.

Penny came to town Saturday night, and in an hour or two was very drunk. He wandered about in East Market street until Officer Wood saw him and called the patrol. With the assistance of Officer Terrence, he was taken to city hall and locked up.

Some time during the night he fell out of the bunk, and alighting on his arm, broke it. When discovered in the morning his arm was badly swollen and he was suffering great pain. The police allowed him to go, but he would not have a doctor, preferring to go to Calcutta, where he said Doctor Leamon would attend to his injury. When arrested the man was helpless. The police say he was the drunkest man who was ever in the wagon, and it has carried some men who were very drunk.

John Perpurro was arrested yesterday by Officer Jennings near the ice plant. He was two drunk, the officer believed, to care for himself. The wagon took him down. He got \$6.60.

## A BIG CROWD.

Attended Excellent Services at Spring Grove.

The services yesterday at Spring Grove were attended by large crowds, over 500 tickets being sold at the gate.

In the morning at 10 o'clock Rev. J. C. Castle, of Allegheny, interested the large audience with a forcible and logical sermon from the text: "If thou be the son of God, come down from above."

Rev. J. S. Raeger, of Wellsville, in the afternoon preached a lengthy sermon which was listened to with rapt attention by the audience. Owing to the absence of Reverend Powell, who was advertised to have charge of the evening meeting, Reverend Castle took his place and again delighted the large audience.

The stockholders of the company will this evening hold their annual meeting for the purpose of electing officers.

## DISTRIBUTING PHEASANTS.

The Work Will Be Commenced Late This Month.

The distribution of pheasants throughout Ohio will be commenced the latter part of August or the early part of September. About 2,500 birds will be distributed in an apportionment covering the whole state. The propagation of pheasants under the direction of the state warden has been remarkably successful. Three thousand five hundred birds have been hatched and reared from 4,600 eggs. Two hundred pairs of birds were liberated in selected parts of Ohio last fall and the increase during the year has been phenomenal, the number exceeding 2,000 birds.

## TWO DANGEROUS CASES.

Scarlet Fever and Diphtheria Developed in Jethro.

Jethro yesterday afternoon produced a case of scarlet fever and one of diphtheria. The afflicted ones are two little daughters of Mr. and Mrs. Elsie Moore. The cases were reported in the evening and in less than 15 minutes Sanitary Officer Burgess had the house quarantined. All the precautionary measures were taken and every effort will be made to prevent the disease from spreading.

## Boy Fell Six Stories.

NEW YORK, Aug. 9.—While playing on the roof of the six-story tenement house at 32 Essex street, Joseph Hartman, aged 11, fell to the pavement, 60 feet below. He was picked up unconscious, suffering from concussion of the brain.

Raphael is said to have conceived, in dreams, the ideas of some of his greatest pictures.

OUR work is not always perfect; but nine times out of ten, and six days in the week, we are doing the best work in eastern Ohio. We're equipped for it. AN ARGUMENT:—There are eggs and eggs; the egg of yesterday looks, feels, measures and weighs like the egg of last month, but there's a slight difference in another respect, and that difference is worth money. It's just so with printing; the difference between the good work and poor is slight to the unpracticed discernment, but it's a difference that counts every time. It costs money, but it makes more—it changes the printing bills from an expense to an investment.

## SHE KNEW HER NAME.

But It Wasn't Her Papa Calling, Only the Brakeman of the Railroad Car.

She occupied the seat directly in front of me on a Central Railroad of New Jersey train from New York the other night. She was a plump girl, with auburn hair and hazel eyes. She was evidently a girl employed in New York—perhaps a typewriter. Her name is Elizabeth. How do I know? Well, I didn't ask her. I never saw her before, no one called her by name and she had nothing about her that served to tell me that her name is Elizabeth. Yet her name is Elizabeth.

I am not the seventh son of a seventh son, neither do I possess the power of second sight. But I found out that the name of the plump, rosy cheeked young miss in the seat in front of me is Elizabeth. Before we had gone many miles out of Jersey City the "sand man" began to play havoc with Elizabeth. Her eyes became heavy, and every few seconds her head would drop. Before we had crossed Newark bay Elizabeth was sound asleep. The train sped on, and when the speed was slackened the brakeman opened the door and shouted: "Elizabeth! E-lizabeth! 'Liz'beth!" With the first word the girl began to move. When the brakeman shouted "E-lizabeth!" the eyes were half opened, and when he finally called "'Liz'beth!" she rubbed her eyes and said, "Yes, papa, I'll get up." Through the cars ran the sound of suppressed laughter. But the girl had fallen asleep again, and when the train stopped and the brakeman again called out "Elizabeth! Elizabeth!" the plump girl jumped up and said, "All right; I'm coming."

This was too much for the harebrained dude across the aisle, and he began to "Ha, ha!" while the giggling maidens several seats in front began to giggle more furiously. Even the sedate looking old gentleman seated near by could not suppress a smile. By this time the girl was wide awake, and that she was conscious of what she had done was evident by the fact that her naturally red cheeks became redder still, and I even imagined that I saw tears in her eyes.

That is how I found out that her name is Elizabeth.—Gerald Gray in Allentown Call.

# FELL FROM HIS BUNK

A Prisoner at City Hall Broke His Arm.

ALEX PENNY WAS VERY DRUNK

He Was Locked Up Until He Could Become Sober, but During the Night Rolled Over Once Too Often—Lives at Calcutta and Is a Coal Miner.

Alex Penny, a colored man who finds employment at the coal mine operated by Frank Rauch beyond Calcutta, fell from a bunk in a cell at the city prison, early yesterday morning, and broke his arm.

Penny came to town Saturday night, and in an hour or two was very drunk. He wandered about in East Market street until Officer Wood saw him and called the patrol. With the assistance of Officer Terrence, he was taken to city hall and locked up.

Some time during the night he fell out of the bunk, and alighting on his arm, broke it. When discovered in the morning his arm was badly swollen and he was suffering great pain. The police allowed him to go, but he would not have a doctor, preferring to go to Calcutta, where he said Doctor Leamon would attend to his injury. When arrested the man was helpless. The police say he was the drunkest man who was ever in the wagon, and it has carried some men who were very drunk.

John Perpurro was arrested yesterday by Officer Jennings near the ice plant. He was two drunk, the officer believed, to care for himself. The wagon took him down. He got \$6.60.

## A BIG CROWD.

Attended Excellent Services at Spring Grove.

The services yesterday at Spring Grove were attended by large crowds, over 500 tickets being sold at the gate.

In the morning at 10 o'clock Rev. J. C. Castle, of Allegheny, interested the large audience with a forcible and logical sermon from the text: "If thou be the son of God, come down from above."

Rev. J. S. Raeger, of Wellsville, in the afternoon preached a lengthy sermon which was listened to with rapt attention by the audience. Owing to the absence of Reverend Powell, who was advertised to have charge of the evening meeting, Reverend Castle took his place and again delighted the large audience. The stockholders of the company will this evening hold their annual meeting for the purpose of electing officers.

## DISTRIBUTING PHEASANTS.

The Work Will Be Commenced Late This Month.

The distribution of pheasants throughout Ohio will be commenced the latter part of August or the early part of September. About 2,500 birds will be distributed in an apportionment covering the whole state. The propagation of pheasants under the direction of the state warden has been remarkably successful. Three thousand five hundred birds have been hatched and reared from 4,600 eggs. Two hundred pairs of birds were liberated in selected parts of Ohio last fall and the increase during the year has been phenomenal, the number exceeding 2,000 birds.

## TWO DANGEROUS CASES.

Scarlet Fever and Diphtheria Developed in Jethro.

Jethro yesterday afternoon produced a case of scarlet fever and one of diphtheria. The afflicted ones are two little daughters of Mr. and Mrs. Elsie Moore. The cases were reported in the evening and in less than 15 minutes Sanitary Officer Burgess had the house quarantined. All the precautionary measures were taken and every effort will be made to prevent the disease from spreading.

## TO COACH THE TEAM.

Captain Palmer Selected For an Important Duty.

It is a position of great importance, and one upon which the work of the team practically depends. Captain Palmer spent today shooting on the range at New Brighton.
